Special Issue: Dynamics and Conservation of Genetic Diversity in Forest Ecosystems

Preface

Dynamics and conservation of genetic diversity in forest ecosystems
A. Kremer and M.-P. Reviron (Cestas, France) 1

Introduction

Review article

Recent developments in conservation genetics
P.W. Hedrick (Tempe, AZ, USA). 3

Gene flow

Review article

Measuring pollen flow in forest trees: an exposition of alternative approaches
P.E. Smouse (New Brunswick, NJ, USA) and V.L. Sork (Los Angeles, CA, USA) 21

Original article

Local pollen dispersal and distant gene flow in Norway spruce (*Picea abies* [L.] Karst.)
J. Burczyk (Bydgoszcz, Poland), A. Lewandowski and W. Chalupka (Kórnik, Poland). 39

Hybridisation

Review article

Hybrid zones as a tool for identifying adaptive genetic variation in outbreeding forest trees: lessons from wild annual sunflowers (*Helianthus* spp.)
C. Lexer (Bloomington, IN, USA), B. Heinze (Vienna, Austria), R. Alia (Madrid, Spain) and L.H. Rieseberg (Bloomington, IN, USA). 49

Original article

Genetic analysis of the *Picea sitchensis* × *glauca* introgression zone in British Columbia
S. Yaw Bennuah, T. Wang and S.N. Aitken (Vancouver, Canada) 65

Adaptation

Review articles

Genetic variation in cessation of growth and frost hardiness and consequences for adaptation of *Pinus sylvestris* to climatic changes
O. Savolainen, F. Bokma, R. García-Gil, P. Komulainen (Oulu, Finland) and T. Repo (Joensuu, Finland). 79

Relating processes to patterns of genetic variation across landscapes
R.G. Latta (Halifax, Canada). 91

Original article

Genetic resources in maritime pine (*Pinus pinaster* Aiton): molecular and quantitative measures of genetic variation and differentiation among maternal lineages
S.C. González-Martínez (Madrid, Spain), S. Mariette (Cestas, France and Nogent-sur-Vernisson, France), M.M. Ribeiro (Castelo Branco, Portugal), C. Burban, A. Raffin (Cestas, France), M.R. Chambel (Madrid, Spain), C.A.M. Ribeiro (Castelo Branco, Portugal), A. Aguiar (Oeiras, Portugal), C. Plomion (Cestas, France), R. Alía, L. Gil (Madrid, Spain), G.G. Vendramin (Firenze, Italy) and A. Kremer (Cestas, France) 103

doi:10.1016/S0378-1127(04)00490-6

Colonization and climate change

Review articles

Ecology and genetics of tree invasions: from recent introductions to Quaternary migrations
R.J. Petit (Cetas, France), R. Bialozyt (Cetas, France and Marburg, Germany), P. Garnier-Géré (Cestas, France) and A. Hampe (Sevilla, Spain) 117

Reconstructing historical ranges with fossil data at continental scales
J.S. McLachlan and J.S. Clark (Durham, NC, USA) 139

Original articles

May inclusion of trait differences in genetic cluster analysis alter our views?
E.M. Gillet (Gottingen, Germany and Escherode, Germany), H.-R. Gregorius and M. Ziehe (Gottingen, Germany) 149

Genetic consequences of forest population dynamics influenced by historic climatic variability in the western USA
R.D. Westfall and C.I. Millar (Berkeley, CA, USA) 159

Spatial dynamics and natural regeneration

Review article

Inferences involving individual coefficients of relatedness and inbreeding in natural populations of *Abies*
K. Ritland and S. Travis (Vancouver, Canada) 171

Original articles

Year and tree effect on reproductive organisation of *Cedrus atlantica* in a natural forest
F. Krouchi, A. Derridj (Tizi-Ouzou, Algeria) and F. Lefèvre (Avignon, France) 181

Spatial pattern analysis of tree species distribution in a tropical rain forest of Cameroon: assessing the role of limited dispersal and niche differentiation
O.J. Hardy (Bruxelles, Belgium) and B. Sonké (Yaoundé, Cameroon and Bruxelles, Belgium) 191

Artificial seed transfer

Review article

Past anthropogenic influence on European forests and some possible genetic consequences
R.H.W. Bradshaw (Copenhagen, Denmark) 203

Original articles

Adaptational characteristics of autochthonous populations—consequences for provenance delineation
J.R.G. Kleinschmit, D. Kownatzki and H.-R. Gregorius (Göttingen, Germany) 213

RAPD and mtDNA variation among autochthonous and planted populations of *Picea abies* from the Vosges mountains (France) in reference to other French populations
S. Jeandroz, A.M. Collignon and J.M. Favre (Vandoeuvre Lès Nancy, France) 225

Silvicultural regimes

Review article

Genetic implications of silvicultural regimes
R. Finkeldey and M. Ziehe (Göttingen, Germany) 231

Original article

Pollen movement under alternative silvicultural practices in native populations of Scots pine (*Pinus sylvestris* L.) in central Spain
J.J. Robledo-Arnuncio (Madrid, Spain), P.E. Smouse (New Brunswick, NJ, USA), L. Gil and R. Alía (Madrid, Spain) 245

Conservation

Review article

Human impacts on forest genetic resources in the temperate zone: an updated review
F. Lefèvre (Avignon, France) 257

Original articles

Genetic variation of relic tree species: the case of Mediterranean *Zelkova abelicea* (Lam.) Boisser and *Z. sicula* Di Pasquale, Garfì and Quézel (Ulmaceae)
S. Fineschi (Firenze, Italy), S. Cozzolino, M. Migliaccio (Napoli, Italy) and G.G. Vendramin (Firenze, Italy) 273

The differences among hairy and typical European black poplars and the possible role of the hairy type in relation to climatic changes
D. Kajba (Zagreb, Croatia), D. Ballian (Sarajevo, Bosnia and Herzegovina), M. Idžojtić and S. Bogdan (Zagreb, Croatia) 279

Targeting genetic resource conservation in widespread species: a case study of *Cedrela odorata* L.
S. Cavers (Midlothian, UK), C. Navarro (Turrialba, Costa Rica) and A.J. Lowe (Midlothian, UK and Brisbane, Australia) 285
Cataloguing *in situ* protection of genetic resources for major commercial forest trees in British Columbia
A. Hamann, S.N. Aitken (Vancouver, Canada) and A.D. Yanchuk (Victoria, Canada) 295
Gene flow between cultivated poplars and native black poplar (*Populus nigra* L.): a case study along the river Meuse on the Dutch–Belgian border
A. Vanden Broeck (Geraardsbergen, Belgium), V. Storme (Gent, Belgium), J.E. Cottrell (Midlothian, UK), W. Boerjan, E. Van Bockstaele (Gent, Belgium), P. Quataert and J. Van Slycken (Geraardsbergen, Belgium) 307
In situ genetic conservation of a naturally restricted and commercially widespread species, *Pinus radiata*
D.L. Rogers (Davis, CA, USA) 311

Conclusion

Review article
Response of forest trees to global environmental changes
J.L. Hamrick (Athens, GA, USA) 323

Contents of *Forest Ecology and Management*, Volume 197 337
